

# Brief descriptor – new/emerging jobs

## Decision Support Analyst:

With the development of Big Data and data analytics, data-driven decision-making is becoming more accessible and critical for the sector. This has led to the emergence of an analyst role that provides advanced data analytics, such as predictive analysis, to provide insight by assessing historical and current business performance, thereby highlighting areas of opportunity for improvement that supports the organisation's various functions. The role is responsible for gathering and maintaining data and digital assets, partnering with other functional teams, and establishing the ongoing development of financial/management reporting that supports business decisions and strategic goals. The goal is to bring more robust data to all stakeholders as quickly and as efficiently as possible.
