Sustainability Manager

To ensure that business practices, products, and services comply with government rules and regulations, the Sustainability Manager will lead research and analysis to develop corporate sustainability strategies. The role will comprise innovative strategies to improve the organisation's sustainability programmes; marketing these strategies to internal and external stakeholders such as colleagues, vendors and customers; and tracking the organisation's sustainability efforts through context-based metrics and KPIs.

Sustainable Sourcing Manager

As stakeholders grow in their expectations of companies to take responsibility for their suppliers' environmental, social and ethical practices, the Sustainable Sourcing Manager must fulfill environmental and societal commitments while still improving the bottom line under procurement. The role will develop, manage, monitor and promote responsible sourcing practices, with responsibilities such as implementing end-to-end supplier due to diligence processes and building metrics to inform and support responsible vendor selection and procurement decisions. The goal is to build solid and long-term relationships with suppliers and advocate for sustainable practices that will extend the organisation's commitment to corporate responsibility.
