Acing Your Interviews

Plan for your interviews

- **Physical interview:**
Arrive at least 15 minutes before the interview
- **Virtual interview:**
Find a conducive location for your interview and test your equipment at least 30 minutes beforehand

Prepare for these common interview questions

- Tell me more about yourself
- Why did you apply for this job?
- What is your weakness?
- Why do you want to work in this company/organisation?

Engage with your interviewers by asking them these questions

- What does a typical day here look like?
- What are the most important skills and attributes that someone in this role should possess?
- What are the long-term prospects for the person who fills this role?

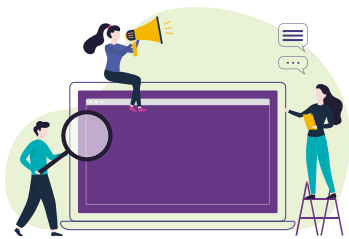

Avoid doing these things

- Speaking negatively about ex-colleagues or bosses
- Answering questions with a simple “Yes” or “No”
- Bringing up or discussing personal issues or family problems

Grab the interviewer’s attention with **C.A.R!**

For example, if an interviewer asks,

“Tell me about a time when you faced challenges when doing your project”

1 Context

Provide a summary of the situation or task

2 Action

Elaborate on how you solved the challenge

3 Result

Share the outcome, relate what you learnt to the job you're interviewing for

MANAGING YOUR FINANCES

BUILD YOUR WEALTH WITH THESE FINANCIAL TIPS

1 Budget, budget, budget

You're transitioning from allowances and part-time jobs to a full-time income, and that's a big deal. Learn how to manage your budget from day one, and you'll be financially prepared for every stage of life.

Write Down

- How much do I want to save every month? \$ _____
- What's my spending limit on entertainment? \$ _____
- What's my spending limit on clothes? \$ _____

[Think of more expense categories and write them down]

2 Automate your savings

Now that you've decided on your spending limits and monthly savings, let's automate this process so it'll always happen – even if you're busy and overlook it.

Grow your savings

- Open a salary and spending account
- Open a dedicated savings account
- Set up a recurring fund transfer, so the amount you want to save, automatically gets sent to your savings account every month

MANAGING YOUR FINANCES

BUILD YOUR WEALTH WITH THESE FINANCIAL TIPS

3 Start investing early

The best time to start investing is when you draw your first paycheque. By investing a small amount of your salary every month, you can leverage the principle of compounding to accumulate funds for the important things in your life.

Write Down

- What are the big things in life that I'm saving for? _____
(i.e. A home, marriage, car, retirement, etc.) _____

- What investments am I comfortable with? _____
(i.e. Insurance, banking products, investment platforms, etc.) _____

- How much do I want to invest every month? \$ _____

Decide on your investment platform (or product) of choice, then set it up as an automatic recurring investment.
