

FACTSHEET ON WSG’S CAREER CONVERSION PROGRAMMES

Workforce Singapore’s **Career Conversion Programmes (CCPs)** provide employers with salary support to support mid-career new hires or existing employees to reskill and take up new job roles with good longer-term prospects.

1) CCP Modes:

- a) Place-and-Train: Company hires jobseeker and puts the individual through on-the-job training (OJT) or industry-recognised training to take on a new growth job role.
- b) Attach-and-Train: Company acts as host employer to provide jobseeker with training and work attachments, in growth jobs roles where there are good prospects for placement.
- c) Job Redesign (JR) Reskilling: Company sends an existing employee for reskilling, to take on growth job roles aligned to industry Transformation Maps (ITMs)/Jobs Transformation Maps (JTM). Growth jobs roles are emerging or good job opportunities with long-term prospects for progression, identified in each sector in response to how the industry is expected to transform over time.

The types of training that mid-career individuals would undergo through the CCPs are broadly summarised in Table 1 below.

Table 1: Types of CCP Training

WSG currently offers CCPs in around 30 sectors to help mid-career jobseekers or existing employees reskill and take on new job roles with good prospects and
