

## **CAPABILITY TRANSFER PROGRAMME FACSHEET [FOR PUBLIC INFORMATION]**

To support pervasive innovation throughout the economy and build deep capabilities in our local workforce, the Capability Transfer Programme (CTP) is available for companies/associations/professional bodies that aim to speed up the transfer of global capabilities into Singapore. This initiative complements existing capability development programmes administered by other Government agencies, to plug capability gaps quickly in today's fast-changing global market.

### **Objectives**

2. The CTP aims to improve local-foreign workforce complementarity, by facilitating transfer of capabilities from foreign specialists to locals, with the objective to encourage the following:
  - a. A culture of pervasive capabilities transfer across all sectors and entities; and
  - b. Companies/associations/professional bodies to develop and acquire new capabilities in Singapore by ensuring that there is sustainable supply of locals with the requisite skillsets.

### **Scheme parameters and eligibility criteria**

3. The CTP supports companies/associations/professional bodies that are pursuing innovative ways to stay competitive and develop their workforce at the same time. Project proposals that will enable transfer of overseas capabilities, which are not found in Singapore, can receive support for the following:
  - a. Bringing in foreign specialists to Singapore to train locals in new capabilities on a time-limited basis; or
  - b. Facilitating remote capability transfer from foreign specialists; or
  - c. Sending locals for overseas training attachments to acquire new capabilities.
4. Funding support for the CTP can include components such as:
  - a. Salary support for foreign specialist, local specialist (if trained by foreign specialist or trained overseas) conducting follow-on training in Singapore, or local trainees sent overseas; and/or
  - b. Attachment-related costs such as airfare and Cost of Living Allowances; and/or
  - c. Venue costs for foreign specialists conducting training in Singapore (for industry-level projects); and/or
  - d. Equipment costs (for industry-level projects).

5. To qualify, companies/associations/professional bodies must be locally registered or incorporated, and operating in Singapore.
6. Support levels will be determined by WSG in consultation with relevant sector agencies, on a co-funding basis where applicable, and will vary depending on the level of impact and type of entity. Funding rates are outlined in [Annex A: Capability Transfer Programme – Supportable Categories](#).

#### **Application process**

7. For more information on CTP, refer to [Capability Transfer Programme FAQs](#).
8. If your organisation has new capability transfer projects in mind, you can get in touch with WSG by visiting [go.gov.sg/wsg-ctp-enquiry-1](https://go.gov.sg/wsg-ctp-enquiry-1) or scanning the QR code below.

9. Once the form is completed, a WSG officer will be in touch with you.
